

IEEE R3-AREA 3 Report for January 23, 2023 R3 EXCOM Mtg

- **Issues requiring action by the Region 3 Committee or ExCom**
 - None

- **Success/Opportunities for Engaging the Member, Volunteer, Non-Member, Public**
 - I am starting the year with a planned trip to South Florida to hopefully meet with the Miami and Palm Beach Sections. Hopefully, by the time we meet at this Excom Meeting, I will have met with these two sections personally as they are the only two that I have not met with or traveled to previously. I have traveled to Daytona, Orlando, FWC, Canaveral and met personally with key members of Broward and of course belong to the Melbourne Section, but, I have yet to travel to and/or meet personally with Palm Beach or Miami Section personally. I hope to be able to report otherwise next week as these plans are being made just prior to our next meeting

 - I will continue to emphasize that all Area3 Sections participate in all future Florida Council meetings so that we can coordinate our strategies for all Florida Sections. I usually send them the minutes from the last meetings and will be inviting them to the next meeting, currently planned for February 4th, 2023

 - My preliminary action items for Area 3 Sections include:
 - Travel to A3 Sections as often as time and travel funds allow
 - Work together as Sections to maximize our member reach, interests, training/activities/presentations and retention
 - Define the kind of activities that we can concentrate on so that we can enjoy working closely with each other as Sections for maximum IEEE overall benefit

- **Notable AREA activities (Positive and Negative)**
 - Looking forward to 2023 Regional Meetings and contact with all A3 and other Section personnel
