## Technology Driving Innovation

Welcome to the 2004 IEEE Canadian Conference on Electrical and Computer Engineering (CCECE 04), Niagara Falls, Ontario.

The organizing committee welcomes you to the 17th Annual CCECE conference taking place in Niagara Falls, Ontario, Canada. This conference is taking place at the Sheraton Fallsview Hotel overseeing the spectacular Canadian Horseshoe Falls and few steps away from many great attractions and facilities.

CCECE provides a forum for the presentation of technical papers that encompass a diverse range of engineering and computer disciplines. CCECE encourages academia and industry participation as well as sponsoring Student Paper Competitions. The conference attracts Canada's best emerging engineering talent to present papers, attend technical presentations and to network with peers and industry.

Approximately 500 papers organized into a number of plenary and breakout sessions are presented by authors representing more than 30 countries. This is the largest number of papers to be presented at a CCECE conference. In addition, three Sunday afternoon workshops will also be presented. We are excited to bring this event that is sponsored by IEEE Canada and its Central Canada Council sections.

We encourage you to visit our website for the latest updates at: "<http://www.ieee.ca/ccece04>".

See you all at the conference on May 02-05, 2004.

**Dr. Robert Hanna**  
Chair, CCECE 04
