Event details:

Date: 26-01-2017

Time: 10:00 AM – 2:00 PM

Venue: Prerana Special School.

On 26th January 2017 (Indian Republic Day), the IEEE MVSR Student Branch STB-12161 had visited Prerana Special School. The children and staff were very pleasantly excited to receive the members. The Student members greeted them with great enthusiasm. There was a huge smile on the faces of the children and they were happy to engage.

The day started off with hoisting the Indian National flag, the fervour of right to equality, right to freedom, right against exploitation, right to freedom of religion, cultural and educational rights, and right to constitutional remedies was present in all.

Painting, Dance, Singing, Imitate a picture (show a picture of a tree. Ask the participants to stand like a tree. Show other objects and have participants imitate that picture), **Fancy dress, Ring toss** were conducted and they were trained for almost 2 months for which the school staff had helped us. We were touched by their performance and that feeling is beyond expressions.

It is rightly said “The only disability in life is a bad attitude”. They are super able people! Far better than we humans do.

It was time for them to leave, we distributed sweets and prizes and on special request we had got 15 more minutes to spend with them, that doubled our happiness and theirs too. It was the most unforgettable day for most of us.

We as a Student Branch pledged since our inception to carry this culture and tradition to instil knowledge, educate the deprived, Teach simple engineering

practices, Career Awareness and above all we believe in “**Being Human**”. The take away from all this is **happiness and self realization**.

“**Love and compassion are necessities, not luxuries. Without them humanity and cannot survive**”.
