

List of Accepted Papers - Late Breaking Research - IEEE TechSym 2016

Paper ID	Paper Title
410	Large Scale Dynamic Content Addressable Memory with Hybrid Matchline Structure
414	Fastracking - A Systematic Method to Verify Portability of 6TiSCH in Contiki
416	B4Heal: Bio-Inspired Biopolymer based Biocompatible Biosensor for Smart Healthcare
419	Dynamic Time Warping of Electrooculograms to Classify Eye Movements as Time-Series Motifs
420	Comparative Study of Numerical simulations of various fins heat sink using CFD Analysis
422	An Accident Detection System for a Single VANET at Low Cost Module
