

## Introduction

Through this report we present the activities at the Regional Meeting of Branches (RRR) 2011 held in the city of Lima, Peru 3 to August 6 this year.

On August 4, Rodrigo Sanchez and Jhosedt Emigdio Guadarrama Diaz Espejel, IEEE Student Branch of Tesco, we left Mexico City to Lima, Peru, where he held the RRR 2011.

Representatives of the IEEE Student Branch Tesco, arrived at the Hotel Bolivar, home of the RRR 2011, where they took out all technical activities. Because the hotel was at 100% occupancy, we decided to stay at the Kamana hotel located a few meters from the hotel headquarters.

## Technical Activities

During RRR representatives Tesco IEEE Student Branch attended lectures and workshops on 5 and 6 August, where talks were very important to us stood out because contributed great ideas to boost the development of the branches and to comply with all requirements necessary to remain recognized as active branches.

Much stressed the importance of making reports of all activities carried out as a branch and also the use of the online tools available to all IEEE members and student branches, and v-tools, Jobsite, My IEEE etc, as it spoke of the great benefit we get to use these tools, an issue that will be disclosed in each member of the respective branches attending this talk.

Conference and Workshop:

- Feedback of RSAC-Team, delivered by Mr. Ruben Barrera.
- Leadership Workshop, taught by Mercedes Arruiz.

## Fair Branches

Upon completion of the activities of the August 5, afternoon organizing committee moved us to the Pontificia Universidad Catolica del Peru (PUCP), college headquarters, where was held the Fair of Branches, in which all the student branches attending the RRR mounted a booth to publicize his branch, his university and the educational offerings of the same.

They visited each of the stands and souvenirs Tesco as T-shirts, pencils, pens, etc. was flattered.

## **Fair of Nations**

Hours after the close of the 2011 RRR Peru, held fair nations in which the student branches each attendee country disclosed as representative of his nation, such as dances, candy, drinks and customs.

Mexican representatives assembled the largest exhibition stand of Nations, where he became known to all Latin American wonderland that await them in the City of Mexico. A stand full of colorful sweets, drinks and the warmth with which they would receive. Thanks to the participation of all Mexicans attending the RRR 2011, it was possible to give this great image of our country.

### Visit the Magic Circuit of Water

In non-technical activities that the organizing committee prepared for all attendees, was a visit "Magic Water Circuit", a set of 13 ornamental fountains that were built in the Parque de la Reserva, cultural heritage of the nation. These sources have set a Guinness Record to be "complex world's largest fountains in a public park", where we could see one of the best shows of Peru, showing the application of technological advances used in shows such , causing a great impact on society.

## **Mexico RRR present in Lima, Peru**

This broad experience has served to enhance the professional and personal skills of each member in attendance to spread to members of the student branches, IEEE tools and the great benefits that come from participating in activities of the IEEE.

### **Thanks.**

I express my sincere thanks to:

- Ing. Vicente Núñez, Director Ejecutivo de IEEE Sección México
- Dr. Francisco Plata Olvera, Director General del Tecnológico de Estudios Superiores de Coacalco
- C.P. Jorge Hernández Hernández, Director De Administración y Finanzas del Tecnológico de Estudios Superiores de Coacalco
- Diana Hernandez, Veronica Rincón ,Ana Solorzano ,Liliana Alonso, Hugo Tapia, Agustin Santana, Miguel Franco, Rodrigo Guadarrama, Carlos Ávalos, Jesus Mendoza y Abraham Olivares.

For their support and dedication to successfully make all this possible.
