

# Magnets – Just Boys Toys ?

By Mr. Roger Allcock, Precision Magnetics

Date Wednesday, 11 July

Time 10am

Venue C53, Sackville Street Building

The University of Manchester IEEE Student Branch is pleased to announce that there will be an seminar started from 10am on Wednesday, 11 July at Room C53 in Sackville Street Building.

## About Presentation

The seminar will be given by Mr. Roger Allcock, who is from Precision Magnetics. Mr. Roger will briefly give some history to the development of magnetic materials and the correct selection of materials for specific applications. The seminar will be given by using many examples and Roger will bring some examples to help the demonstration.

## About Company

The Company is now owned by Arnold Magnetic Technologies one of largest producers of magnets in the world - \$180M T/O. Precision Magnetics is approx. £2.1M T/O, mostly in the area of high precision assemblies for Aerospace, Oil & Gas, Formula 1, Hybrid Vehicles & Medical devices.

## About Seminar

This seminar is intended to enhance the education to industry relationship. Moreover, it may be a good chance for your future careers.
