http://www.ieee.org/portal/cms_docs/pubs/confstandards/pdfs/IEEE-PDF-SpecV401.pdf

PDF files must not have Adobe Document Protection enabled, as this prevents us from processing the file. These submissions must be formatted to 8.5" x 11" page size, and in first-page-first order. Please verify that the final version of your PDF file prints correctly to a PostScript printer before submission. Documents that do not print correctly cannot be reviewed. Also, make sure to disable ALL document security. For best results, authors should avoid the use of custom half tones, bitmap pattern fills, and bitmap fonts. Use standard half tones and solid color or grey fills instead. If you are able to create a PDF file yourself, you are encouraged to do so. Be sure that you embed all fonts that are used when you create the PDF file.
