Dear Industrial Partner:

The 2014 Nuclear Science Symposium, Medical Imaging Conference and 21st Symposium on Room Temperature Semiconductor Detectors will be at the Washington State Convention Center, Seattle, Washington. The meeting will be held from 8 to 15 November 2014. This is an excellent time to visit Seattle, where the weather is always pleasant. It will also be an excellent time for exciting science in the field of radiation instrumentation and medical imaging, by gathering the world class scientists, engineers and industrials active in the field. You should make plans to come and showcase your latest products and services right away!

Attendees coming to the meeting attend special focus workshops and short courses, and present their research on radiation instrumentation, signal processing, new detectors, medical imaging systems, high energy physics, photon science, space application and homeland security. Even with the budget constraints scientists had to endure in the past few years due to worldwide economic turmoil, the attendance to the IEEE NSS-MIC has been steadily increasing, to reach over 2000 attendees at the 2012 meeting in Anaheim, California. In 2013 (Seoul, Korea), there were 74 booths available to industrial partners, which were completely sold out by July 2013. All this is very promising for the 2014 meeting in Seattle, where 68 booths will be available.

You should not miss the opportunity to showcase your new products and get more visibility by the scientific community by participating in the Exhibitor Technical Sessions. Only 16 time slots will be available and we invite you to inform us of your intent to participate as soon as possible.

The Washington State Convention Center, offers an excellent venue for the meeting, including the industrial exhibits. The exhibit area will be centrally located in the conference center, next to the poster sessions. All coffee breaks will be in the exhibit area. This is the ideal setup to maximize interactions between the attendees and the exhibitors. To allow the NSS, MIC, and RTSD communities ample time to visit the exhibit area, the exhibit will be open from Tuesday lunch to Thursday at the end of the afternoon coffee break, with time on Monday and Tuesday morning to setup and Thursday evening and Friday morning for removal of the booths. The exhibitors’ reception, another great opportunity for you to network with the attendees, will be held on Tuesday night, as it has been for several years. The detail schedule is included on the following pages.

Again this year specific double booths will be available. These double booths will be held for companies to reserve until the end of May. If not reserved, they will be available as single booths. The booth layout shows the double booth positions in color. Any other multiple booth combination can also be reserved.

Your active participation in the 2014 NSS-MIC is crucial for the success of the meeting. On behalf of the Organizing Committee and its Chairman, Anthony Lavietes, I invite you to take part in this unique opportunity to present your products and to network with the NSS, MIC, and RTSD communities.

Thank you for your continued support by attending the meeting.

We look forward to seeing you in Seattle.
