

## IN THE NEWS

For his tremendous professional and leadership contributions to the power engineering profession, **Mike Dyer**, Executive Engineer, Engineering Support, has been named the 2010 Outstanding Engineer of the Year. He received the honor on Feb. 12

from the Phoenix Chapter of the Institute of Electrical and Electronics Engineers (IEEE) Power & Energy Society.

Dyer has been a member of IEEE for the past six years and has made significant contributions to the engineering standards and guides. He also has made significant contributions in the areas of failure analysis, quality assurance, and equipment and material specifications.

Dyer has chaired the Cable Impedance Task Group for the Association of Edison Illuminating Companies and the Engineering & Substructure Subcommittee for Western Underground. Dyer has served as engineering director for the National Cable Splicing Certification Board.

He recently was elected to chair a Submersible Connectors Committee for the American National Standards Institute.
