Ben Ervin has worked at Ameren for almost 12 years, of which he spent 6 years as an electric and natural gas customer service consultant in the Wentzville District. Then he spent two years in the purchasing/strategic sourcing group with Ameren Services. Most recently He is a construction supervisor handling the Underground Equipment Inspection program that was mandated by the MO PSC in 2009.

Ben has an Undergraduate degree in business and MBA from Fontbonne University in St Louis. He also recently completed his Level 1 Certification for Infrared Thermography per (ASNT) SNT-TC-1A 2006.

He is also currently working on a project to use Infrared cameras to determine oil tank levels in distribution transformers.
