

Call for Demos

Sixteenth IAPR International Conference on Machine Vision Applications

MVA2019: <http://www.mva-org.jp/mva2019/>

We cordially invite you to submit your proposals for demonstrations. This dedicated demonstration session will provide a good opportunity for you to show your innovative prototypes, get constructive feedback on your developed solutions or products, and communicate with participants directly. Technical topics of this session include all areas covered by the MVA conference.

Application:

Prospective demonstration exhibitors should fill out and submit the application form and send it to technical event chairs by email:

Kyoko Sudo (kyoko.sudo@sci.toho-u.ac.jp)

Yasutomo Kawanishi (kawanishi@i.nagoya-u.ac.jp)

Submission Deadline: 31 January 2019

Date and time: 29th, May, 30th May (time: TBD)

Location: Olympics Memorial Youth Center, Tokyo

Space: 1.8x1.8m (tentative), one table, poster panel, electric outlet (100V)

Registration: FREE registration for three persons.

Logo posting on conference webpage: Participants of the demonstration session will be provided the opportunity to put the company's logo and link on MVA2019 website. For your reference, please check MVA2017 demonstration web page:

<http://mva-org.jp/mva2017/demos.html> .

Young Researchers Meeting

We recommend that exhibitors also attend the Young Researchers Meeting, a lunchtime discussion in small groups of young researchers (students, post-docs) and demonstration exhibitors (corporate researchers and engineers) in a relaxed atmosphere. It will provide exhibitors a good opportunity to directly communicate with young researchers and introduce their companies, recruit employees/interns, and call for participation in events such as a hackathon. You can see MVA2017 young researchers meeting web page:

http://mva-org.jp/mva2017/young_researchers.html

Demo Application form

E-mail:

Acceptance of Demonstration

The acceptance of the demonstration will be sent by mid-February 2019 at the latest. Earlier decision might be possible, if necessary. After the confirmation of acceptance, the exhibitors are required to submit the following:

- A demonstration summary of 100-200 words.
- The necessary information to perform the demonstration (e.g. electrical supply capacity, how to deliver/carry exhibit materials, needed space).

(*) The title could be modified, if needs be, when submitting the completed application.
