The IEEE Panama Section invites to participate to participate in CONCAPAN XXVII that will taking lace in Panama City from November 29 until December 1, 2007 in one of the most moderns and luxurious hotels in Panama City, Playa Bonita Intercontinental Hotel & Resort, located in a privileged site in the city.

CONCAPAN, is the biggest IEEE technological event in Central America and Panama. During this event there will be technical conferences, in the areas described below as well as other related to Electrical, Electronics Engineering and Computers. Also, there will be an exhibition area where local and international companies will be showing their products and services.

The globalization process worldwide requires that our markets be modernized and achieve the efficiency level that a world competition requires. In CONCAPAN XXVII we expect to have presentations that will help to achieve those objectives in our countries sharing experiences, knowledge and making the necessary contacts for proper follow up with growing opportunities.

CONCAPAN in open to receive papers, without limiting to only those, in the following specialties:

Power	Control
Energy	Computers
Communications	Industrial Applications
Biomedics	Robotics

Important dates:

Deadline to receive papers: August 30, 2007
Confirmation of papers accepted: September 15, 2007
Deadline for expositors to register to include the paper in the program: September 30, 2007
