

Guidelines for Best Interactive (Poster) Paper Award Finalists

For Best Interactive (Poster) Paper Award Finalists, in addition to prepare a poster, you are also required to make a 5-mins virtual presentation video to introduce your work. You should record your PPT presentation video and upload the video file via the EDAS paper submission portal, following the steps below. This applies to all poster Finalists (even if you will present your poster paper in-person since some judges may only be available virtually).

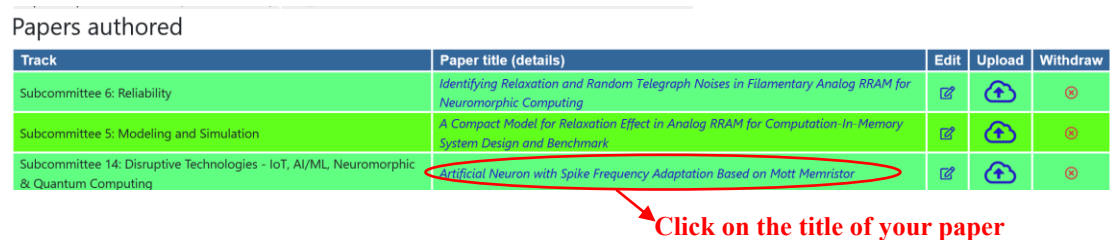

NOTE: All the videos of Best Interactive Paper Award Finalists will be posted online. The Finalist video presentations will be watched and evaluated by the Award Selection Committee, and the Best Interactive Paper Awards will be selected based upon both the technical merits of the poster papers and the video presentations.

Step 1: Logon to your account on EDAS: <https://edas.info/N27705>, go to My...→My profile (Note: if your dropdown menu does not work, please directly copy & paste this link to your web browser: <https://edas.info/showSelf.php?c=27705>):

The screenshot shows the EDTM 2021 website interface. The top navigation bar includes links for Home, Papers, People, Conference, Sessions, Register, Travel grants, My..., and Help. The 'My...' dropdown menu is open, showing options: My profile, My papers, My reviews, My TPCs, and Chairing. A red circle highlights 'My profile', and a red arrow points to it with the text 'Click my profile'. Below the navigation bar, there is a yellow banner with the text 'Agree with EDTM2021 Privacy Policy (authors must check off on submission)'. The main content area displays 'Register a paper for 2021 5th IEEE Electron Devices Technology & Manufacturing Conference (EDTM)' with a pencil icon and a note: 'Click on the name of the track to submit a paper; tracks without links are not accepting submissions at this time.'

Step 2: Scroll down to “Papers authored”, and click the title of your paper that has been accepted by EDTM 2021.

The screenshot shows a table titled 'Papers authored'. The table has four columns: Track, Paper title (details), Edit, Upload, and Withdraw. The third row is circled in red, and a red arrow points to it with the text 'Click on the title of your paper'.

Track	Paper title (details)	Edit	Upload	Withdraw
Subcommittee 6: Reliability	Identifying Relaxation and Random Telegraph Noises in Filamentary Analog RRAM for Neuromorphic Computing			
Subcommittee 5: Modeling and Simulation	A Compact Model for Relaxation Effect in Analog RRAM for Computation-In-Memory System Design and Benchmark			
Subcommittee 14: Disruptive Technologies - IoT, AI/ML, Neuromorphic & Quantum Computing	Artificial Neuron with Spike Frequency Adaptation Based on Mott Memristor			

Step 3: Choose the following options to upload your poster file in **Microsoft PowerPoint format** and pre-recorded PPT presentation video in **MP4 format**.

Be sure to download the file you just uploaded to make sure it opens correctly.

Use this button to upload your poster file (Microsoft PPT format)

Your recorded presentation videos (MP4 format)		Can upload any length (track) until May 31, 2021 15:00:59 CST.												

Use this button to upload your recorded PPT video (5-mins limit, MP4 format)

Instructions for Recording PPT Presentation as a Video

Example with Microsoft Office 2019

Step 1: select **Slide Show > Record Slide Show**

Step 2: choose from two options:

- **Record from Current Slide**
- **Record from Beginning**

Step 3: when ready, select **Record** and start presentation/speaking

Step 4: manage your recording:

- **Pause:** to pause a recording
- **Stop:** to end a recording
- **Replay:** to replay a recording
- **Pen, Highlighter, Eraser:** use the pen, highlighter or eraser tools to mark up your presentation/recording

Step 5: Remove your recording: select **Clear** and choose from options

Step 6: save a recording as a video: select **File > Export**

- Save your recording in **MP4**

Step 7: Upload your recorded presentation video to EDAS
