The International Joint Conference on Neural Networks

IJCNN 2019
July 14-19, 2019   Budapest, Hungary

About the conference

The 2019 International Joint Conference on Neural Networks (IJCNN) will be held at the InterContinental Budapest Hotel in Budapest, Hungary on July 14-19, 2019. The conference is organized by the International Neural Network Society (INNS) in cooperation with the IEEE Computational Intelligence Society, and is the premier international meeting for researchers and other professionals in neural networks and related areas. It will feature invited plenary talks by world-renowned speakers in the areas of neural network theory and applications, computational neuroscience, robotics, and distrbuted intelligence. In addition to regular technical sessions with oral and poster presentations, the conference program will include special sessions, competitions, tutorials and workshops on topics of current interest.

Visit Budapest:
From the abundance of thermal springs to one of the largest Parliament buildings in the world, it's no wonder Budapest is ranked one of the most beautiful cities in Europe, attracting over four million visitors each year. There are World War II memorials for history lovers, Hungarian delicacies for the foodies, and street music, folk dancing, and famous museums for those who enjoy the arts. Though convenient public transportation is offered throughout this capital city, its highlights are easily accessible by foot, allowing you to walk the cobblestone streets—or across the variety of picturesque bridges over the river Danube, joining Buda and Pest—and appreciate the rich culture.
