Notes

Collecting historical data for the charts in this document was made possible with the help from Dr. John Kosinski, the General Chair of the 2007 IEEE IUS, Dr. Fred S. Hickernell, a former Newsletter Editor of the IEEE Ultrasonics, Ferroelectrics, and Frequency Control Society (UFFC-S), Dr. Herman van der Vaart, the Finance Chair of the UFFC-S, and others. Many data were obtained from the Newsletters and the Administrative Committee (AdCom) Minutes of UFFC-S on the web, Program Books of the conferences, Conference Proceedings, and miscellaneous sources such as the Federation of Animal Science Societies (FASS) in the past and from the presentations of Dr. Maurício Pereira da Cunha, the TPC Chair of the 2007 IEEE IUS.

We appreciate all who have contributed the data and those who have made the AdCom Minutes, Newsletters, and Proceedings available on the web.

*Group III:* Physical Acoustics – 95  
*Group IV:* Microacoustics - SAW, FBAW, MEMS – 150
