I. Photos and Videos Taken during the Conference
(405 photos and 14 videos in total)

Introduction:

We would like to thank the members of the Conference Organizing Committee, Technical Program Committee (TPC), Administrative Committee (AdCom) of the IEEE Ultrasonics, Ferroelectrics, and Frequency Control (UFFC) Society, officials of the UFFC Society, Acoustical Society of China, Institute of Acoustics of Chinese Academy of Sciences, staff and volunteers, and all attendees, for their efforts and support on a successful 2008 IEEE International Ultrasonics Symposium (IUS), which was held from November 2-5, 2008, in Beijing, China.

The videos that are accessible via the link below were taken during the 2008 IEEE International Ultrasonics Symposium and were adapted and edited by the web master (they are in MPEG2 format at 640x480 resolution with about 3000Kbits/s data rate for backward compatibility and a compromise on file sizes). These videos have captured some of the conference activities and you may find yourself and/or your friends and colleagues in the videos. Conference activities that are not in the videos may be found in the photos. Because the video files are usually large in size, it is advised to download them to your computer hard drive for a smooth play back (if your internet speed is greater than about 512KBytes/s, you should be able to play the videos directly).

Some photos taken during the conference are also accessible via the links below. It is likely that you will find yourself and/or your friends and colleagues in the photos. (Note: the photos were contributed by various individuals including the photographer of CICCST, Dr. Kirk D. Wallace, Dr. Shitang He, Mr. Sunil Bhave, and others, and have been edited by the web master.)
