

WIE/YP Kayaking Adventure

Sometimes life gets hectic and engineering is typically a sedentary job. We may remember to hit our books, read the news, or listen to that new Tech Ted Talk. However, everyone must remember that enjoying the sun and outdoor activities provides a great work life balance. Thus, July 30th, a few members of WIE/YP put kayaks in the water and pushed off for an adventure. The sun was shining and the current was slow. We paddled towards a cozy beach, Daisy Beach, and enjoyed a packed lunch on the Contoocook River. The river went on forever and we considered investigating where the waters would end. Our conversations ranged from professional tips of the trade, hilarious help desk calls, and new movies to anticipate. We did not find the end of the river. Nevertheless, our trip did end with a treat - delicious ice cream at the local ice cream shop!
