2017 STRATUS Workshop

Systems and Technologies for Remote Sensing Applications Through Unmanned Aerial Systems

20 October 2017

Louise Slaughter Hall, Rochester Institute of Technology, Rochester, New York

<http://ewh.ieee.org/r1/rochester/grss/STRATUS2017>

<p>Topics (UAS-related): 3D and Multi-view Imaging Analysis Techniques Applications Calibration Imaging Systems Platforms Sensors Technologies</p> <p>Organizing Committee: <i>General Chair</i> Emmett Lentilucci</p> <p><i>Technical Program Chair</i> John Kerekes</p> <p><i>Financial Chair</i> Don McKeown</p> <p><i>Sponsors and Exhibits Chair</i> Michael Richardson</p> <p><i>Tutorial Chair</i> Carl Salvaggio</p> <p><i>Local Arrangements Chair</i> Colleen McMahon</p>	<p>Overview: The emergence of low-cost and easy-to-use Unmanned Aerial Systems (UAS), commonly referred to as drones, has lead to an explosion of their use for numerous applications. In particular, these new platforms have enabled new imaging and earth remote sensing technologies and applications previously unavailable due to the high cost of manned aircraft or satellites. This workshop will bring together academics, industry representatives, and domain specialists to share perspectives on this rapidly evolving topic.</p> <p>Abstract & Presentation OR Paper & Presentation: The workshop will have a two-track submission process for program consideration. You can either submit an abstract (plus presentation) or a 4-page paper (plus presentation).</p> <ul style="list-style-type: none"> • <u>The first track</u> is for workshop participants who desire to share their work during the conference without submitting a full paper. This first track will require an abstract only for program consideration. • <u>The second track</u> is for authors wishing to present a full paper to be published in the proceedings, which will be archived in IEEE Xplore. A four-page IEEE style paper is required and will undergo a full peer-review process for those wishing to seek this option. <p>Program will include both oral and poster sessions, as well as breaks for networking, browsing exhibits and live demonstrations.</p> <table border="0"> <tr> <td>Full paper submission deadline</td> <td>Monday, September 11, 2017</td> </tr> <tr> <td>Abstract-only submission deadline</td> <td>Friday, September 15, 2017</td> </tr> <tr> <td>Early (online) registration deadline</td> <td>Friday, October 6, 2017</td> </tr> <tr> <td>Notification of acceptance</td> <td>Friday, September 22, 2017</td> </tr> <tr> <td>Camera-ready paper due (for full paper option)</td> <td>Friday, October 6, 2017</td> </tr> </table> <p>Registration: Registration information will be available on the website.</p>	Full paper submission deadline	Monday, September 11, 2017	Abstract-only submission deadline	Friday, September 15, 2017	Early (online) registration deadline	Friday, October 6, 2017	Notification of acceptance	Friday, September 22, 2017	Camera-ready paper due (for full paper option)	Friday, October 6, 2017
Full paper submission deadline	Monday, September 11, 2017										
Abstract-only submission deadline	Friday, September 15, 2017										
Early (online) registration deadline	Friday, October 6, 2017										
Notification of acceptance	Friday, September 22, 2017										
Camera-ready paper due (for full paper option)	Friday, October 6, 2017
