

Report of the One-day lecture meeting on October 9, 2018

AP-MTTs KOLKATA CHAPTER organised a one-day lecture meeting on October 9, 2018 at the A N Daw Meeting room, Science College Campus at Rajabazar. The two speakers of the day were from top American Industries.

Dr. Arnab Roy of InterDigital Communications, USA works on technology development for next generation cellular and WLAN systems and enlightened the participants on the latest 5G technologies and their applications. It was a highly interesting and motivational lecture.

Dr. Archita Banerjee from Carlisle Interconnect Technologies, USA gave her talk on RF connector design for defense, space and other specialized applications. It was highly informative for the RF designers and engineers.

The event was attended by various faculty members, research scholars and graduate students. It was a very successful event and highly beneficial of the microwave and antenna researchers.
