CALL FOR PAPERS

Original Research work, neither published, not under consideration at any venue are solicited under the Control, Measurement and Instrumentation:

- Advances in Theoretical Aspects of Control, Measurement & Instrumentation (CMI)
- Adaptive & Intelligent Control
- Nonlinear Systems & Control
- Process Control & Instrumentation
- Networked & Distributed Control
- Optimal & Robust Control
- Estimation, Modeling & Identification
- Real time Systems & Embedded Applications in CMI
- Multi Agent Systems
- Agricultural Application of CMI
- Sensors & Sensor data fusion
- Smart City and Vehicular Applications of CMI
- Robotics & Mechatronics Systems
- Signal & Image Processing in CMI
- Vision Sensing Based Systems
- VLSI, Micro & Nanotechnology in CMI
- Biomedical Sensors, Signal Analysis & Health Monitoring Applications
- CMI in Wireless Systems
- IoT Applications in CMI
- Systems & Synthetic Biology
- Machine Learning & AI Applications in CMI
- CMI in Smart Power Systems
