**'IT' put India on the world map.
But who put 'IT' on the Indian map?**

Today, IT accounts for 21.3% of India's total exports. But in 1968, when we set up our first office in India, it didn't even exist as an industry. Tata Consultancy helped lay the foundation for the growth of the industry in India with pioneering initiatives and business models. Tata Consultancy has also played a seminal role in the global acceptance of Indian software. We have been, and are, the leading Indian IT services company with over 70,000 employees of 53 nationalities providing solutions for clients in 35 countries. Now, if that's not global; what is?

Welcome

Welcome to IEEE INDICON 2006!

IEEE India Council has been holding an Annual Conference and Exhibition (ACE) at different locations in India. From 2004, ACE is renamed as IEEE INDICON. IEEE Kharagpur Section organized IEEE INDICON 2004, and IEEE Madras Section organized the IEEE INDICON 2005, an International Conference and Exhibition under the aegis of IEEE India Council. IEEE INDICON 2006 is being organized by IEEE Delhi Section. The venue of the conference, being held on 15-16-17 September 2006, is India Habitat Center, Lodhi Road, New Delhi, the capital city of India.

As in the past, the Conference is providing a forum for scientists, educators, students and practicing engineers to meet and exchange ideas and explore new avenues of research, cooperation, and knowledge sharing. Apart from the presentation of contributed papers reviewed by a renowned panel of reviewers, INDICON 2006 also includes Workshops and Invited Talks by pioneers in various fields. This years' conference focuses on "Emerging Trends in ICT (Information and Communications Technology)

We are happy to share with you that our call for papers received an overwhelming response. We received around 300 extended abstracts, and are glad that over 130 technical papers are being presented in the conference. The technical program has been arranged in 18 sessions. These papers span a large variety of areas related to signal processing and applications, communications, information technology, cryptography, and networks.

The conference is preceded by workshops on several emerging topics. We are sure you will take full advantage of these workshops. We are sure that these workshops, and the technical sessions and invited talks that follow, will make the attending the conference an enriching experience for us all.

We are grateful to Mr. Rajeeva Ratna Shah, Member Secretary, Planning Commission, Government of India, who has kindly agreed to inaugurate the conference.

We wish to express our gratitude to our sponsors (Tata Consultancy Services and Xansa) whose generous contributions have made this conference possible.

We gratefully acknowledge the great contribution of all the reviewers whose effort is instrumental for the success of any such conference. We take this opportunity to thank the student volunteers also.

It gives me a great pleasure to write about INDICON 2006 being held at New Delhi. India Council's annual activity / conference popularly known as "Annual Convention & Exhibition" (ACE) was being jointly organized by India Council and one of the Sections In India. For the last 3 years ACE has been transformed into an International Conference. The first such a Conference was organized at IIT, Kharagpur in 2004, followed by 2nd one at Chennai in 2005. This is going to be the third such Conference and is being jointly organized by IEEE India Council and IEEE Delhi Section at India Habitat Center, Lodhi Road, New Delhi from 15th to 17th September 2006. The theme of the Conference is "Emerging Trends in ICT (Information and Communications Technology).

The Conference will provide a forum for scientist and Engineers from India to meet together and exchange ideas to explore new areas for improvement. The Conference will have both contributed as well as invited papers by pioneers in the field. In addition the Conference will provide a forum for first 3 winners of M. V. Chauhan Student Paper contest organized for IEEE Student Members in India to present their papers in person to all participants of the Conference. I am sure the deliberations will benefit all.

I appreciate the efforts & hard work put in by the Program & Organising Committee to make the event successful.

I wish the Conference a grand success.
