IEEE Delhi Section

vol 24 no 1-4
January-April 2024

From the desk of ECC

My dear esteemed Members,
After giving a miss to e-newsletter during October-December 2023, an attempt is being made to release its vol 24 no 1-4, January-April 2024. It contains IEEE Conferences in the jurisdictional area of IEEE Delhi Section (IEEE TENSYMP 2024, & DELCON 2024 to be watched), new Section Executive Committee for 2024 taking over in the AGM of Section held at India International Center, New Delhi on February 18, 2024, current Section strength as on 03 April 2024. It may be seen there is a drastic reduction from 7,500 *plus* to about 4,200, i.e., almost 56%. Student Members may be picking up again as usual, but it may be difficult in the professional membership. Without excluding the names of members who haven't renewed from the list, but adding the new ones, this circulation is sent reminding defaulters for corrective action to renew the membership.

With best regards and wishes,

(Dr. Subrata Mukhopadhyay)

(*Although initially targeted for a few, then roping in entire Exec Com, and now wide open for a collective participation for a feeling of oneness and longing, Daman's notification is circulated for enriching inputs in the matter that may be missed otherwise.*)

Dear All

Some of you may be aware of this already. We wish to submit our application. While the last date is 15th May, we wish to complete early and submit by the 15th of this month itself.
Dr. Rajnish and I will be working on this in a project mode, under the guidance of Prof. Ansari and Prof. Hoda.

Attached please see the application format and the questions to be answered/ information to be provided.

We request you to provide your portion by the 10th (Wednesday) of the month, so that we are able to compile full application, get it reviewed and submit by 15th.

The information may be on your tips, or already on paper. **<u>Assume the outcome is based on your portion only and put the best foot forward</u>**. While there is word limit, please do not hesitate to write as much as you wish. Please ensure that your story covers numbers, number of lives impacted, so what, etc. These need to be only for the period Jan 2023-Dec 2024, e.g.

   a. Weekly webinars (stated with the backdrop of Covid-19 Pandemic) – nn sessions, nn speakers, nn participants from IEEE, nn participants from other societies. Nn

participants from others, nn volunteers involved in managing the activity, nn hours of learning and sharing, nn hours spent in managing the activity, diversified speakers (males/ females, IEEE/ non-IEEE members, Delhi/ non-Delhi speakers), diversified topics (technical, non-technical, general)etc. etc. Some feedback (if received/ collected). Membership development (this can be a claim in almost all activities) – we know our needle moved positively.

b. Student Activities – almost similar to the above. Specially if we can collect some feedback, and also needle movement wrt student branches added, revived, and number of student members added.

So, all Chapter Chairs, all Affinity Group Chairs, all Standing Committees Chairs to provide their portions.

We will then compile a compelling application and submit.

With this teamwork, we hope we will win and set an example for ourselves to follow in coming years also.

Please provide your inputs by the 10th of this month.

If you have any questions, please do not hesitate to write to us.

We look forward to your support.

With Best Regards
