Dr. M. A. Jabbar [Vice- Chair, Student Activities]

Mr. G. Dileep Kumar [Secretary]

Dr. Rajanikanth Aluvalu [Treasurer]

Last Date Of Submission: 15th July 2020

Description: IEEE Hyderabad Section Computer Society Chapter brought this Article Writing Competition, an opportunity to pen all the writing skills and prove themselves to the students.

Themes: 1. Artificial Intelligence
2. Cyber Security

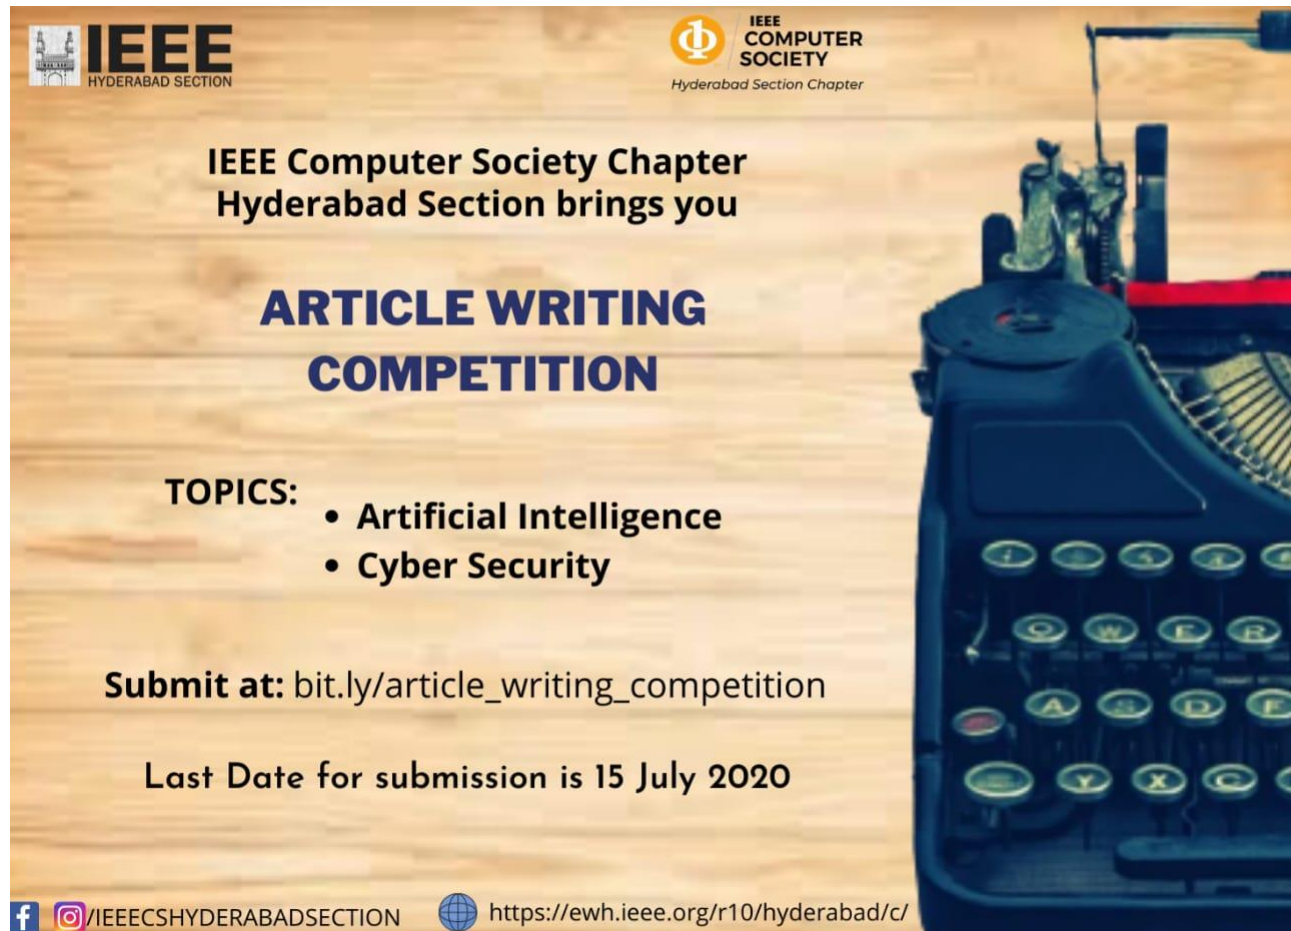

We have released the poster and details of the competition 15 days ahead so that the students who are willing to participate would make time for themselves and write an article and participate in the competition. We have got a very good response. The total number of participants is 126 we have got nice articles where the students showed good interest in the explanation of themes every article was unique in its way few people restricted themselves for 1-2 pages where others gave an elaborated version of 3-4 pages. Every one confined themselves to the theme which was been provided and explained very well.

By conducting these types of Competitions the IEEE computer Society Hyderabad section would like to encourage the writing skills of the student which is very useful to the students in their career if they get it any product based company or any other company as well.

Writing an article not solemnly depends just on writing but exploring the theme and gathering the content and then organizing the content and then framing them to the restricted pattern involves lots of passionate interest and knowledge.

This practice of Article writing could help the upcoming generation in a very good manner so we have thought to organize it and it was a successful event too.

POSTER USED FOR PUBLICITY

The poster features a background image of a wooden desk with a blue typewriter on the right side. The text is centered on the left side of the image.
