iWEM started in Taipei in 2010 for the first time as “International Conference on Applications of Electromagnetism and Student Innovation Awards” (2010 ICAE/SIA), and it then continued but renamed in Taipei in 2011 as “IEEE International Workshop on Electromagnetics: Applications and Student Innovation Competition” (2011 IEEE iWEM). Supported by IEEE, this workshop series will be held in rotation in Taiwan, China, Hong Kong, and Japan. Different from other recognized conferences and/or workshops, this workshop series focuses more on student innovation competition and runs in a single session format. It provides not only an international platform for scientists and engineers to exchange their ideas, but also a good venue for young scholars and students to demonstrate their innovative results (which may lead to awards).

IEEE iWEM2014 is organized by the IEEE AP-S Japan Chapter, and technically co-sponsored by IEEE AP-S Fukuoka/Kansai/Nagoya Chapters, IEEE Sapporo Section, and IEICE Communications Society. The venue of the workshop is Hokkaido University, Sapporo, Hokkaido, Japan. Sapporo is the largest city on the northern Japanese island of Hokkaido. All accepted papers will be included in IEEE Xplore.

The Topics of Interest Include but Are Not Limited to the Following:

- *Electromagnetic Theory*
- *Computational Electromagnetics*
- *Antennas*
- *Antenna Measurement*
- *Microwave*
- *Wireless Systems*
- *Array Signal Processing*
- *Millimeter Wave, Terahertz Technologies*
- *Propagation*
