

Inspire Innovation: Engineering in the Classroom!

Sponsored by the American Society of Civil Engineers (ASCE), the American Society of Mechanical Engineers (ASME), the Institute of Electrical and Electronics Engineers (IEEE) and the Junior Engineering Technical Society (JETS)

Funded by the United Engineering Foundation (UEF)

Registration Ends on Monday, June 2, 2008

Come and discover how you can enhance your efforts to bring exciting engineering education to your local schools and pre-university educators. Participants will use fun, kid-tested engineering activities from the ASCE, ASME and IEEE. This workshop will feature inquiry-based learning, incorporating national mathematics, technology and science standards and address issues of gender and diversity in engineering education. Participants will have the opportunity to explore complimentary resources, gain insight into outreach programs that will help you organize public outreach events and train other volunteer engineers. Complimentary resources will be provided and will include instructional booklets, lesson plans, activity guides, a self-tutorial PowerPoint training presentation and much more. Participants will also learn to identify and work with educational partners including schools, PBS stations, museums and youth groups.

This event is FREE of charge, but you are asked to register in advance at:
http://www.ieee.org/web/education/preuniversity/Inspire_Innovation.html

When: Saturday, June 07, 2008
8:00 a.m. – 12:00 p.m.

Where: Walt Disney World Swan and Dolphin Resort
1500 Epcot Resorts Boulevard
Lake Buena Vista, FL 32830, USA
Room: Swan 3 – 4, Ground Level

Light breakfast foods will be served.
