About ABB:

ABB (www.abb.com) is a leader in power and automation technologies that enable utility and industry customers to improve performance while lowering environmental impact. The ABB Group of companies operates in around 100 countries and employs about 145,000 people. The company's North American operations, headquartered in Cary, North Carolina, employ about 30,000 people in multiple manufacturing, service, engineering and other major facilities. The Lake Mary factory is part of ABB's Power Products Medium Voltage Business. It is a manufacturing site for medium voltage outdoor products and switchgear.
