

ASPE Chapter #71 Seminar 2009

All About
BIM

**Could this be the Future?
Come and learn how
Building Information Modeling
can change the way we design, estimate,
construct, maintain and operate our buildings.**

The Presenter:

Deke Smith is the Executive Director of the building SMART alliance™ a dynamic and expanding program of the National Institute of Building Sciences (NIBS) to improve construction productivity through interoperability and elimination of non-value added effort or waste in the facilities industry. He was the founder and former chair of the NIBS Facility Information Council. He initiated the US National Computer Aided Design (CAD) Standard and the National Building Information Modeling (BIM) Standard.

- Learn about the full scope of Building Information Modeling and why it is such a big issue.
- Understand how cost engineering will need to change to support object oriented modeling.
- What standards are being used and which ones are being developed.
- What are your next steps and how do you get involved.

When: Thursday, January 22 1PM to 5PM
Optional Prime Rib Dinner at 5:30PM
Where: Steeplegate Inn
100 W 76th St., Davenport, IA

Return the form below with your payment.
