

## THE ANALOG

Here at IEEE Central Texas, we are proud and grateful to All IEEE and Non-IEEE Volunteers in Hosting the 10th International Conference of Green Technologies in Austin, April 4-6 followed by Region 5 Meeting and Student competition.

The theme of the conference was Smart cities and we had special guests, the mayor of Austin Steve Adler, the president of IEEE USA Candy Robinson along with 5 keynote speakers, 17 panel sessions, 5 workshops and 35 technical papers along with Technical tours and networking reception and dinner.

All in all it was great success and we thank all and in particular students from various universities and the exhibitors.

Fawzi Behmann  
CTS section chair and GreenTech Conference General Chair
