## Seeing the Big Picture at Boeing

Dr. Ross Snider

Electrical and Computer Engineering, Montana State University

This past summer I had the privilege of being a Boeing 2010 Welliver Faculty Fellow. This allowed me to see the inner workings of Boeing on both the commercial and defense sides of the company. I will relate my experience of the fellowship, which occurred over a two month period. I will also describe how this experience will impact the computer engineering curriculum at Montana State University.
