

Events in 2019

Mar 14, 2019	Can Onur Avci (ETH Zurich) "Current-induced Magnetization Control and Spin Transport in Ferromagnetic Heterostructures"
May 29, 2019	Victorino Franco (U Seville/Spain) IEEE Distinguished Lecturer 2019 "Magnetocaloric Effect: From Energy Efficient Refrigeration to Fundamental Studies of Phase Transitions"
Aug 26, 2019	Hyunsoo Yang (NUS) IEEE Distinguished Lecturer 2019 "Spin-Orbit Technologies: From Magnetic Memory to Terahertz Generation"
Aug 28, 2019	Jan Musfeldt (UT Knoxville) "Near-Field Infrared Spectroscopy of Domain Walls and Single-Sheet Materials"
Nov 13, 2019	Hari Srikanth (USF) IEEE Distinguished Lecturer 2019 "Tuning Magnetic Anisotropy in Nanostructures for Biomedical and Electromagnetic Applications"
Dec 4, 2019	Justin Shaw (NIST Boulder) IEEE Distinguished Lecturer 2019 "Broadband Ferromagnetic Resonance Spectroscopy: The "Swiss Army Knife" for Understanding Spin-Orbit Phenomena"
