Date: September 10, 2002 (second Tuesday of the month)
Society Chapter: Santa Clara Valley Chapter of the IEEE EMC Society
Time: 5:30 PM - 8:00 PM, Refreshments and hors d'oeuvres will be served, first come first serve
Place: 1600 Amphitheater Parkway, SGI Bldg 40, Mt View, CA

RSVP is Not Required

Annual Society Social Meeting

The Santa Clara Valley EMC Society Chapter invites all EMC society members and prospective members to attend our annual kickoff season social on Tuesday, 10 September 2002. The social will start at 5:30 PM and continue until 8:00 PM.

The purpose of this event is to promote interaction and discussion about useful topics for the technical sessions to be held during the 2002-2003 season, and to have a good time. This is the opportune time to trade summer vacation stories, find out who is working where, who might have an opening in their company, as well as visiting with your peers again after the summer.

The chapter also invites prospective speakers to attend this session and submit their presentation for consideration. Suggested topics include: measurements (techniques, technology, problems, corrections, calibration); test facilities (shielded rooms, open field test sites, screen rooms, anechoic and semi-anechoic chambers); EM noise sources and studies; design for reduced noise; ESD; antennas and propagation; EMC standards and regulations; EMC and Signal Integrity issues, wireless topics, and computer aided analysis and design.

Anyone interested in presenting an outline of these or other appropriate topics should contact any of the Chapter ADCOM members at the meeting or by looking into our local website at <http://www.scvemc.org/scvemc/>

$$\nabla \times \vec{E} = - \frac{\partial \vec{B}}{\partial t}$$

$$\nabla \times \vec{H} = \frac{\partial \vec{D}}{\partial t} + \vec{J}$$

$$\nabla \cdot \vec{D} = \rho$$

$$\nabla \cdot \vec{B} = 0$$
