

Join us March 16th for an exciting presentation regarding Motor/VFD Cable Feeder Issues. There is no cost to attend the presentation; dinner is available for a nominal fee.

IEEE NCS IAS/PES Meeting
Motor/VFD Cable Feeder Issues

Thursday, March 16, 2006, 6:00PM to 9:00PM
Cedar Park Inn, Edmonton.

Speaker:

Paul Wright, P. Eng.

SIEMENS Canada Limited
Business Development Manager
Drives and Motors BU

Graduate from University of Waterloo with BAsC in power and Control Engineering in 1977. Worked in Field service and Product Application engineering with Westinghouse Canada for 7 years specializing in Large Drive Systems (Drag Lines, Shovels and Peak Shavers) In 1994 I joined Relcon as field service engineer starting up and commission AC and DC Drive systems. After an extensive field service background, I went into Industrial Drive sales and expanded the company growth to become a District Manager of Sales and Service. In 1991, Siemens purchased our company and I continued to sell Low Voltage and Medium Voltage Drives solutions. My present responsibility as business development Manager is to promote the proper application of adjustable speed drives and ensure clients understand the pitfalls that may surface and impact the success of the installation.

Motor/VFD Cable Feeder Issues

*Attendance Provides 1 'Formal Activity' PDH Towards
APEGGA Professional Development*

Motor/VFD Cable Feeder Issues

Location: Cedar Park Inn - Edmonton South

5116 Calgary Trail Northbound, Edmonton, Alberta, Canada T6H 5C2

Date: Thursday, March 16th, 2006.

Registration and Cash Bar: 6:00 PM
