

**Fifth IEEE Spanish Workshop on Signal Processing, Information Theory and Communications, SIC17 Winter**

<http://www.tsc.upc.edu/SIC17a/>

During the morning on January 24th we will host three exciting talks delivered by **Bruno Clerckx**, “*Rate Splitting: An Idea Whose Time Has Come*”, **Eduard Jorswieck**, “*Resource Allocation in Heterogeneous interference networks: energy-efficiency, security and latency*”, and **Martin Lerch**, “*Affordable Mobile Communications Experiments in High Mobility Scenarios*”. The afternoon session will include our traditional poster session, where you are encouraged to participate and present some of your recent research results. Posters do not undergo any previous review process and are not included in any proceedings of any form. Just indicate the title and authors during the free registration process of this web page and a poster stand will be allocated for you.

A social gathering and banquet will be organized for the evening of January 23rd. Please confirm your participation to me before January 16th if you done so already. Participants will have to cover the dinner cost of 35 €

Please feel free to distribute the announcement to any potentially interested parties and do not hesitate to email to me at [javier.fonollosa@upc.edu](mailto:javier.fonollosa@upc.edu) if you need further information.

Thank you very much and looking forward to seeing you in Barcelona!

Kind regards,

Javier R. Fonollosa
