

IEEE INNOVATION IN STUDENT ACTIVITIES AWARD

UKRI Student Congress 2011

Introduction

The aim of this award is to honor the innovative and creative events being organized all across the Section by the Student Branches.

These activities encompass every aspect of IEEE life whether it be technical, social, industrial, membership development or just plain fun!

The student branches can participate by uploading the report of their event including the

- Date the event was held,
- Description of the event,
- Pictures,
- Number of attendees,
- Any other relevant information.

Student Branches may send in multiple entries.

Eligibility

- The event must have been held between 1st January, 2010 and 31st July, 2011.
- The event must have been hosted by the local IEEE Student Branch.

Prizes

A panel of judges will go through all the entries and give this award to the most innovative and creative activity.

The winning student branch will receive a prize.

Certificate of participation will be given to all the participating student branches.
