

# **IEEE Region 3 Remote Conferencing/Meetings Ad Hoc Committee Status Report 03 June 2013**

## **Mission:**

The mission of the committee is to investigate the feasibility of generating, and if possible, generate a list of equipment and procedures that would facilitate the publicizing, recording, and sharing of Section meetings across the Region.

## **Status:**

### ***Actions to Date:***

1. Recruitment of additional members at local geographic unit level.
2. Review of WebEx capabilities, in particular the WebEx Event Center as configured by IEEE IT for the local geographic units.
3. Research into recommended or supported hardware

### ***Concerns:***

1. Will WebEx Event Center as currently configured for the local geographic unit have the necessary capabilities? In particular:
  - (a) a VOIP option is current not available (although the IEEE vTools Committee is currently researching what would be needed to add VOIP capabilities.)
  - (b) Video is not a selectable option available to the local geographic units when requesting a WebEx Event Center session.
