2014 Highlights

#### *Meeting Activities*

Charlotte focused in 2014 on making member activities more *regularly and reliably scheduled*. Further, we focused on methods to more reliably present this information to members, particularly in “pull” formats. We have found that “pushing” information, e.g. emails ineffective for a generation accustomed to getting information where & when it’s wanted, via internet.

As last year, tours were particularly well attended by professional members in the Section.
