IEEE Miami Section Report to

FC and Region 3, April 10-12, 2015

The section continues to be active I terms of technical and social meetings for the various chapters. In 2014, the section conducted more than 35 technical/professional and or social activities. We submitted all reports to IEEE headquarters on time including; meetings, officer and financial reports. The section has 7 society chapters, three student branches (FIU, UM, and MDC). There are also two student chapters for IAS and PES at FIU. The section provided some support to student with the branches.

Goals

1. Continue our activities improving our STEM Outreach effort (Future City, Teacher workshops, Laboratory visits, work with other societies; FES, ASCE, etc.)
2. Continue Support of student branches
3. Plan to have at least 4-5 technical meetings per month
4. Nominate 10 for Senior Memberships
5. Have more social events

Milestones

1. Nominated 7 members for senior membership applications which were approved in 2014 and early 2015.
2. Conducted 3 Teacher STEM workshops on how to prepare their students for competitions and careers in STEM
3. Provided awards for student senior projects
4. Improved the Section Website

Obstacles

1. Finding continuous Volunteers
2. Encouraging Chapter Chairs to be more active
3. Getting more industry support.

Mr. Juan L. Farah, Chair, Miami Section

Dr. Osama Mohammed, Vice Chair, Miami Section
