IEEE Alabama Section Report

- Had 17 new Senior Members elevated for 2016 (goal was 8). Two Senior Member roundups were organized in different times/cities (May in Birmingham & October in Tuscaloosa).
- Section organized monthly technical meetings and/or industrial plant tours, in conjunction with the American Welding Society. For 2017, meetings have been laid out for the coming year.
- Hosted the IEEE MOVE in Birmingham.
- Society chapters (C16, IA34, MAG33) and Life Member Affinity group have been active with regular meetings. For 2017, a few new officers for PE31 have been identified in order to revive chapter.
- Transitioned to new slate of officers, following a biennal progression.
- Plans for 2017: meet Senior Member elevation goal (8 with 3 YTD); improve Section meeting planning (early planning, database, location); better engage student branches and YP.
