

# IEEE Region 3 SoutheastCon 2021

## IEEE Louisville Section Update

*Jason Finn*

*Sr. Electrical Engineer*

*14 March, 2021*

# Greatest 2020 Success

## *Region 3 Meeting*

- Being able to shift to a virtual meeting footing, using WebEx and Zoom.
  - We were able to hold successful virtual technical talks including:
    - Personalizing Drug Delivery through Clinically Relevant Modeling and Control
    - Integration of Large PV Power Plants and Batteries in the Electric Power System
  - Providing sponsorships/financial aid to local student educational endeavors to ease hardships created by the pandemic.
    - UofL ECE 412 remote lab kits funding for students in need

# Greatest 2020 Challenge

## *Region 3 Meeting*

- Attracting & maintaining attendance and Louisville IEEE participation during the pandemic.
  - Remote/virtual meetings just aren't as attractive as onsite tours or talks with dinner & drinks

# Top 2021 Goal

## *Region 3 Meeting*

- Hold in person meetings/talks again. Other than that, really to boost Louisville IEEE membership and bolster participation both at the attendee level and the ExCom level (new recruits).

# IEEE Region 3 SoutheastCon 2021
