

IEEE Region 3 SoutheastCon 2021

Melbourne Section SECON Report

Raúl Ortega

Section Chair

14 March, 2020

Melbourne Section Greatest 2020 Challenge

Region 3 Meeting

- Our last Section Chair (for many years) unfortunately suffered a personal loss and had to vacate the Chair position at year end 2019. In view of my short exposure to the Section culture and proceedings, my challenge was to assume the Chair position, maintain a seamless transition and initiate a culture of change and continued improvement to the attainment of the Section and IEEE goals

Melbourne Section Greatest 2020 Success

Region 3 Meeting

- We are now over a year into our current Chair administration and enjoy the following positive, well accepted, changes:
 - A very successful section newsletter, the IEEE Melbourne Section Space Signal, which informs our membership in advance of our meetings of all key issues, pertinent schedules and updates
 - Regularly scheduled Meetings, 6 times per year, in the same venue location which facilitates personal planning and interest
 - Developed an interesting meeting agenda tailored to promoting individual participation as well as interest in the development and efforts of each of the organizational Technical, Affinity and Young Professional groups

Melbourne Section Top 2021 Goal

Region 3 Meeting

- Our vision and Top Goal for 2021 is to foster an increased level of participation in Section activities and improve interest in IEEE by our membership. Our emphasis will be to attract the younger/newer members who have offspring that may be attracted to our profession by providing interesting topics and activities such as Makers Fairs, Partnered Gaming with local theaters and presentations of interest to this age groups. We will emphasize more participation from the local Junior and Senior High Schools to promote these efforts

IEEE Region 3 SoutheastCon 2021

Thank you!
