

IEEE R3-AREA 3 Report for March 21, 2022 EXCOM Mtg

- **Issues requiring action by the Region 3 Committee or ExCom**
 - No new issues

- **Success/Opportunities for Engaging the Member, Volunteer, Non-Member, Public**
 - I continue getting my bearings and working on understanding what my responsibilities are to Region 3 and Area 3 Sections include. I am becoming familiar with the sections in my Area and getting to know the leadership in each section by starting small projects that are mutually beneficial to all our area section members. I am looking forward to meeting the Section Chairs personally and develop a plan of action at SECON2022

 - One of my immediate goals is to invite the Area 2 and 5 Chairs to participate in the Florida Council meetings so that we can have a unified plan for all Florida Sections and communicate with them as a team. I look forward to meeting all Area Chairs at SECON2022

 - My preliminary action items for Area 3 Sections include:
 - What will it take to get non participating or sluggish sections to come up to speed and get super active?
 - How can we work together as Sections to maximize our member reach, interests, training/activities/presentations and retention?
 - What kind of activities can we concentrate so that we can enjoy working closely with each other as Sections while obtaining maximum results for the Section Membership and for IEEE?

 - We are looking forward to a great 2022!!!! I look forward to bringing the Area 3 Sections together as a family within Region 3 and IEEE!

- **Notable AREA activities (Positive and Negative)**
 - I have been concentrating on familiarizing as many sections with the meeting/events sharing process as possible. I hope that the Area chairs have taken note and we can work together to make this practice standard to all R3 Sections

Raul Ortega
