

To: Region 3 ExCom
From: Sonya Dillard, Chair – Member Communications Committee (MCC)
Subject: MCC Monthly Report
Date: 20 June 2022

We have continued to work on distributing member communications information out to the entire Region 3 membership. In addition, I have supported a working session with the R3 OAC in support of the Operational Audit, with Bill Ratcliff on May 30th, 2022 via WebEx.

Since our meeting in May, we have:

- * Located a dormant YouTube site for Region 3 to house and maintain recordings of technical meetings, for members to access on demand. Access was acquired to this site and new media was uploaded.
- * Secured two new representatives to our committee to help us with the dissemination of Region 3 communications. We welcomed Binesh Kumar to help us as the social media assistant, and Arup Ghosh to help us revamp our dormant YouTube channel.
- * Submitted another monthly eNotice with announcements and upcoming events to Region 3. The next month's edition of the eNotice will go out on 7/1/2022.

Director Theresa Brunasso would like to see the scheduled committee meetings for R3 posted on the Website, so members can attend if interested. The MCC is still working this action.

(NOTE) Due to the 4th of July Holiday, we will cancel our meeting on 7/5/2022 and resume our monthly IEEE R3 MCC meetings on Tuesday, August 2nd, 2022 at 5:00pm – 5:30pm.
