

IEEE R3-AREA 3 Report for November 14, 2022 EXCOM Mtg

- **Issues requiring action by the Region 3 Committee or ExCom**
 - None

- **Success/Opportunities for Engaging the Member, Volunteer, Non-Member, Public**
 - I continue communicating with the sections and leadership in my Area and getting to know the leadership and key contacts. With the year coming to an end, I am starting to plan for 2023

 - I will continue to work on Area 2 and 5 Chairs to participate in the next Florida Council meeting so that we can coordinate our strategies for all Florida Sections. I have sent them the minutes from the last two meetings and will be inviting them to the next meeting, currently planned for December 2022

 - My preliminary action items for Area 3 Sections include:
 - Define what it will take to get non participating or sluggish sections to come up to speed and get super active
 - Work together as Sections to maximize our member reach, interests, training/activities/presentations and retention
 - Define the kind of activities that we can concentrate on so that we can enjoy working closely with each other as Sections for maximum IEEE overall benefit

- **Notable AREA activities (Positive and Negative)**
 - Looking forward to 2023 Regional Meetings and contact with all A3 Sections

Raul Ortega
