

IEEE R3 Melbourne Section Report for November 14, 2022 R3 EXCOM Mtg

- **Issues requiring action by the Region 3 Committee or ExCom**
 - No new issues

- **Success/Opportunities for Engaging the Member, Volunteer, Non-Member, Public**
 - Our Section Newsletter, the IEEE Melbourne Section Space Coast Signal, was sent out at the beginning of November in preparation for our Section Meeting on Nov. 9, 2022. Unfortunately, our meeting was postponed to December 14th due to Hurricane Nicole

 - Our Section meetings are currently scheduled for odd months, on the second Wednesday of the month

 - The Melbourne Section has been prioritizing their participation in Area 3 Section presentations as well as other national sections. Our membership is pleased to have such a plentiful and varied selection of topics to attend, learn and participate in. The section's meeting count has increased dramatically with triple the events reported in most recent years

 - The sections final events for the year will be our Awards Banquet on December 2nd, 2022 and our postponed Section Meeting on December 14th

- **Notable section activities (Positive and Negative)**
 - As we receive notice of availability of funds from different IEEE resources, we not only have the latitude in funds to plan more functions but we can also include our area sister sections to hold joint activities
