Pat,

Can you double check that Ryan Integlia, the section vice chair is receiving region correspondence?

Coastal South Carolina Section Report

The section had four events between April and May. We conducted two STEM literacy events with local library systems in April. A future STEM event is planned in July. Other events in April included a be life member event touring Brook Green Gardens. This was the first event conducted with pre-approval of the region life member coordinator. We thank Jacob Kulangara for his help and directions. The section treasurer and student branch counselor also met with the student branch for a social and to plan out fall activities.

In June the section will conduct a social at an EMBS conference in our area. We have sent a professional activities request for the social. Event coordinators will send comms to life members about the social.
