

Team,

Last month I joined Director Grigorian, Past MGA VP Gostin, and Past IEEE Treasurer Randall at the [VIC Summit](#) in Boston. The VICS and Honors Ceremony recognizes technology heroes who have changed our world. Many awards were given, and it culminated with the 2024 IEEE Medal of Honor being awarded to [Robert E. Kahn](#), for pioneering technical and leadership contributions in packet communication technologies and foundations of the Internet. IEEE President Coughlin wrote an [article about the Summit in Forbes magazine](#), and I encourage you to read it.

Following the summit, I stayed in Boston to work with the rest of the IEEE Governance committee, reviewing bylaws, policies and other IEEE documents. As part of my work on that, I am leading a team to review the Humanitarian Board organization.

On June 6, I'll be presenting in an IEEE-USA [consulting workshop](#) at the [IM Engineering South conference](#) in Charlotte. Attendees earn 5 Professional Development Hours, and IEEE members get 50% off. I hope to see many of you there.

As always, my sincere gratitude for all you do for IEEE!

Respectfully submitted,  
Theresa Brunasso  
IEEE R3 Past Director
