

Team,

This month I presented as part of an IEEE-USA [consulting workshop](#) at the [IM Engineering South conference](#) in Charlotte, and I continue my work on the MGA GUOS and the IEEE Governance Committees.

The big news is that Region 3 members, Grayson Randall and Bill Guzek, drove the MOVE-1 Truck to Ruidoso, New Mexico where they are working with the Red Cross to assist the victims of the South Fork & Salt Fires. As of June 24th, two deaths have been reported as a result of the blazes and approximately 1,400 structures have been destroyed. Residents began returning to Ruidoso Monday, June 24. Re-entry will be for local full-time residents only, and they are being asked to return with a week's worth of food and water as local grocery stores remain closed. Residents are likely to return to homes still lacking electricity, gas, and water. You can receive updates on the deployment on [Facebook](#)

### **Want to help?**

IEEE MOVE Community Outreach program is made possible through the generosity of members and philanthropic partners. MOVE does not get yearly funding and in order for MOVE to continue our efforts to assist at disasters, it is necessary for us to raise funds.

**Donate:** MOVE is funded by donations like yours. Your support is greatly appreciated, and I hope you will join me in donating. Please consider a donation today to assist your fellow IEEE Volunteers as they respond to the needs of those in need. Any amount helps, but we suggest a monthly donation of \$14 for the 14,000 structures that were destroyed [Donate Now](#)

**Volunteer:** The MOVE program is always looking for volunteers who have a deep passion for humanitarian work and the expertise, wisdom and time to commit in support of the program. [Volunteer Form](#)

As always, my sincere gratitude for all you do for IEEE!

Respectfully submitted,

Theresa Brunasso  
IEEE R3 Past Director
