CSRA-IEEE_AGENDA_2025_addendum_032925_X.pdf;

Alessio, and ALL --

Attached is the Projected Agenda for IEEE Central Savannah River Area Section [CSRA] R3 for 2025-2026. I am in discussion with faculty at Augusta University, College of Science and Mathematics [CSM], in the Department of Physics and Biophysics and within the CSM and University at large [including the Cyber Institute, etc.] concerning establishing a Student Branch and other liaisons, as noted on the agenda.

Annette and I are also in discussion with Jacob M Kulangara, PE, Region 3 LM Coordinator, [cc'd here] concerning establishing a Life Members Affinity Group (LMAG) for the Central Savannah River Area Section [CSRA] and we are in the process of reviewing the following MGA online electronic petition forms:

[1] R3 LMC Coordinator Presentation on Policies and Petitions 06-10-2023

[2] Lifecycle of online Petition, Potential LMAG activities & Staff Support (Att-1)

[3] LMAG Petition Process 060121 Jacob Kulangara (Att-2)

I plan to attend the next IEEE Region 3 ExCom meeting scheduled this evening Monday, April 28, 2025 (8:00-10:00pm EDT). If there is any information concerning assistance for Region 3 Sections, considering there may be financial needs for our Section as we assist with establishing an IEEE Student Branch, we would such truly appreciate it. I am currently reviewing the paperwork and formalities with faculty and students at the moment [<https://students.ieee.org/student-branches/form-an-ieee-student-branch/>].

This year I also plan to attend IEEE Sections Congress and IEEE SouthastCon 2026 and we, from the Department of Physics and Biophysics, are hoping to have many of our students in the Applied Research and Engineering Physics Track/ Electronics and Nuclear Concentration Track submit papers, posters, and competitions for the IEEE SouthastCon 2026 to be held in Huntsville, Alabama [<https://ieeesoutheastcon.org/>]. Please keep me updated as further updates are made available for IEEE Sections Congress and IEEE SouthastCon 2026.

We look forward to an upcoming productive two years together!

Regards,
SAH

Stephanie A. Huguenin
Chair, Institute of Electrical and Electronics Engineers [IEEE], Central Savannah
River Area Section [CSRA]

IEEE - Central Savannah River Area Section PROJECTED AGENDA 2025-2026

Prepared Jointly by: S.A. Huguenin, Chair, and A. Burney, Treasurer, IEEE Central Savannah Section Area - Region 3 Officers

Date: 03/29/2025

2025 Activities

Date	Activity	Goal (be specific – Recruitment, Retention, Engagement]	Responsible/Accountable/Contributor
March	EXCOM – Meeting Planning for 2025-2026 Agenda and SoutheastCon Preparation Participate in 2023 IEEE SoutheastCon	Determine 2025-2026 measures for recruitment, retention, and engagement. Represent CSRA Section - Engage with academic and engineering communities	Stephanie Huguenin, Chair/Annette Burney, Treasurer Annette Burney – Representative – Treasurer Bryan Riley will also attend.
April	EXCOM – Meeting Planning for formal 2025-2026 Agenda including technical logistics, functional operations, venues, contributors and speakers, and possible student branch creation	Facilitate 2025-2026 measures for recruitment, retention, and engagement. Represent CSRA Section - Engage with academic and engineering communities	Stephanie Huguenin, Chair/Annette Burney, Treasurer
May	EXCOM – Meeting Planning for formal 2025-2026 Agenda including technical logistics, functional operations, speaker dates and locations, Life Member Affiliate Group creation, Student Branch creation, liaison contacts, etc.	Facilitate 2025-2026 measures for recruitment, retention, and engagement. Represent CSRA Section - Engage with academic and engineering communities	Stephanie Huguenin, Chair/Annette Burney, Treasurer [possible, Jacob M Kulangara PE Region 3 LM Coordinator, and others].
July	EXCOM – 2025 Meeting for Technical Preparations for Meetings and Action Items		Section Members – Vtools Call
August	Provide IEEE presence and information at TechNet Augusta (Local annual Cyber conference)	Recruitment: new members	Dennis Moen
September	Ethics for Engineers: The Social Responsibility of Engineers – Seminar – Professional Development	Professional Qualification, Retention, Engage with the local engineering communities	Dennis Moen
ROTATION-BASIS	Schedule 5 technical meetings with cross-section of power engineering and Cyber and maintain our quarterly Section EXCOM meetings, to include:	Member recruitment, retention and engagement	Leadership active involvement

2026 Activities

Projected Agenda :

Date	Activity	Goal (be specific – Recruitment, Retention, Engage with the local engineering communities]	Responsible/Accountable/Contributor
April	Project Control and Risk Management Seminar -- Professional Development	Professional Qualification, Retention, Engage with the local engineering communities	Dennis Moen
June	Control Systems Seminar/Tutorial -- Technical Meeting	Recruit and Engage with the local academic and engineering communities	Bryan Riley
August	Computer/Data Science and Cyber Seminar – Technical Meeting	Recruit and Engage with the local academic and engineering communities	TBD/AU Cyber Institute
October	Nuclear Sciences Seminar – Technical Meeting	Recruit and Engage with the local academic and engineering communities	TBD/SRS Contractors such as Savannah River Nuclear Laboratory [SRNL], Savannah River Nuclear Solutions [SRNS], etc...
December	Bioinformatics/Image Processing/MRI/Radiology	Engage with the local academic medical community	TBD/ AU/Medical College of Georgia/Wellstar
