The Web-a-thon is started off by the inauguration of the theme for the web-a-thon. The Web-a-thon theme is launched by Mr. J. Prasanna Kumar, HOD and Professor of CSE Department, MVSR Engineering College on 12 September 2020 at 7 PM and also accompanied by Dr. D. Hari Krishna, Student Branch Counsellor, IEEE MVSR SB and Mrs. B. Saritha, Student Chapter Advisor, IEEE MVSR CS. Mr. E. Sai Charan, Chairperson, IEEE MVSR CS shared that objective behind this Web-a-thon is to discover creative web designers among the students, and also to give them a feeling of competition so that they can prepare themselves to compete among the outsiders, and can take part in these types of competitions in the near future. This will also encourage students and help them in developing their skills.

At the end of the inaugural session, Ms. M. Jahnavi, Vice Chair, IEEE MVSR CS thanked J. Prasanna Kumar, HOD and Professor of CSE Department for gracing the attendees with his presence and guidance

The theme of this competition is to let the students build their portfolio website using the skills that they have learnt in the Week of Learning programme. At its most basic form, a portfolio website provides professional information about an individual or a company and showcases their work. The contest started on 12 September 2020 at 7 PM and continued till 14 September 2020 7 PM. The participants are supposed to build a portfolio website and host their website using GitHub pages. GitHub is a site hosting service that takes HTML, CSS and JavaScript files directly from a repo on GitHub.

For the contest, a total of 43 participants have taken part. Among all the participants, three participants have won the competition. The winners received the Amazon Cash Vouchers. Every participant has developed their portfolio website using HTML, CSS and JavaScript and published them using GitHub Pages. Here is a sample portfolio website developed by one of the participants.

The submissions are evaluated by one of our faculty members T. Sujanavan, Assistant Professor, MVSR Engineering College and they're judged based on the following criteria:
- Implementation of HTML, CSS and JavaScript concepts
- Creativity
- Usefulness.

The participants from different streams have participated in the Web-a-thon and made their submissions by building a portfolio website. This Web-a-thon has enabled the participants to apply the skills they've learned in the Week of Learning to build a website.
