It has been close to two years since Covid -19 pandemic started and there are no signs of this coming to an end. Majority of the countries around the world have witnessed three waves of Covid-19, with third wave accounting for a greater number of infections. During this period, the pandemic has disrupted the lives of many people irrespective of their age group, economies of several countries have taken a hit, as a consequence countless individuals lost their means of livelihood. Mortality rate of this pandemic has also been high, many parents lost the battle against covid and succumbed to it, leaving their children in distraught. The condition of vulnerable groups also deteriorated. This vulnerable groups include orphans, old age people, daily wage workers etc. Orphanages and Old age homes funding and donations have also taken a hit during this period.

IEEE MVSR SB understands its responsibility towards society and have taken an initiative to support the orphanage by providing them necessities, interacting with the children virtually and knowing their concerns amidst third wave of Covid -19 prevalent in country and positivity rate reaching new heights.
